The Enrichment Triad Model is a literacy-rich, inclusive, cross-curricular, student-driven model. Its primary goal is to improve schools from within the classroom by differentiating and enriching the curriculum for ALL students in the regular classroom through interdisciplinary studies. It encourages the use of a wide variety of instructional strategies and styles while allowing students to experience self-directed, innovative learning based on their individual interests, strengths and learning styles. If thoroughly implemented, this model will offer the students three levels of enrichment.

Participants will be introduced to the work and philosophy of Joseph Renzulli and Margaret Beecher. This will be followed by an intensive, in-depth training of what the enrichment triad model is and how to implement it in the classroom. The training will include multiple handouts, activities, video clips of the model, discussion articles and actual practice. There will be lesson demonstrations of key skills to be taught and practice of each phase of the triad.

#### Participant Comments (2018)

*"I learned how the Enrichment Triad Model has such an amazing impact on student's learning and their lives."*

*"I had such fun! I was not expecting to have laughed and cried, be so moved and motivated. I feel invigorated and excited about implementing this model."*

**PERSONALIZE LEARNINGoverset • INCREASE SELF-ESTEEM • CELEBRATE STUDENT SUCCESS**
