

TEACHER DESIGNED PROFESSIONAL LEARNING GRANTS 2022

by Kimberley McKay, NBTA Staff Officer

INTRODUCTION

The New Brunswick Teachers' Association recognizes that teacher professional learning occurs within a broad spectrum of experiences and processes that lead to deepened understanding and improvement of practice. Effective professional learning strongly links teacher and student learning and is guided by evidence. Further, research highlights that effective professional learning must be personalized and responsive to the complex and unique needs and context of the learner.

As adult learners, teacher motivation for professional learning is linked to relevance, meaning and choice. Developing competence and a sense of self-efficacy by directing one's efforts to meet student needs is key to teachers undertaking professional learning. An integrated design that focuses upon student and teacher learning activities within a job-embedded context and supported by both time and resources is the ideal professional learning context.
